Serba Dinamik Qatar ops unaffected

KUALA LUMPUR: Serba Dinamik Holdings Bhd's operations in Qatar remain active as the company is not impacted by the ongoing rift in the Middle East, said Group Managing Director/Group Chief Executive Officer, Datuk Dr Karim Abdullah.

In a statement today, Serba Dinamik clarified that it is a Malaysian entity and is in no position involved in the ongoing complication pertaining to the isolation of Qatar by Saudi Arabia, Egypt and at least three other Arab nations.

"We provide operations and mainte-

nance (O&M) services, which is not affected by the current matter. In fact, we are gearing up for opportunities to possibly provide our support to gas producers in Qatar, due to the vacuum of contractors from these respective countries pulling out of Qatar," said Karim.

"On another note, the delivery of oil and gas, particularly liquefied natural gas gases, will not be interrupted as there are different shipping routes that are still accessible for delivery to its major buyers through Oman and Iran," he said.

"Our O&M services will not be affected as production is still ongoing," he said.

Serba Dinamik's O&M services in Qatar contributed 16 per cent to the company's total revenue in fiscal 2016. - Bernama
