CEO: Serba Dinamik ready to extend expertise to Petros

KUCHING: Malaysia's energy services firm, Serba Dinamik Holdings Bhd, is ready to assist Petroleum Sarawak Bhd (Petros) in terms of oil and gas expertise.

Serba Dinamik Holdings Bhd group chief executive officer Datuk Abdul Karim Abdullah said the Sarawak government's decision to set up Petros to handle the oil and gas downstream industry was a bold and commendable move.

"As we know, Sarawak is rich in mineral resources, and has the potential to be the main driver of the country's economic development through Petros.

"With a strong passion and high spirit, it is not impossible for Petros to be listed in the top 500 global oil and gas companies in the future," he said at the Sarawak Oil and Gas Opportunities-Sharing Session held in conjunction with the launching of Petros, here, recently. **Bernama**
